Our mission has changed and even though I have been saying “The Mits will be our last plane”,she is now on the market. 22MK is prime-example P Model.

On all our previous planes we had done avionics, paint and interior. The prior owner, a MU-2 rock star and now friend, got her 99% of the way there. She has Garmin glass, rock solid AP, all the MU-2 goodies and great appearance. Other than the “Garret salute”, we get compliments everywhere we go.

Service by prior owner and myself completed at Jet-Air and Intercontinental.

Long time friend Neal Schwartz is representing 22MK. The listing is here...

<https://www.controller.com/listing/for-sale/201699851/1978-mitsubishi-mu-2p-turboprop-aircraft>.

If you are looking for a nice short body, this might be the one you are looking for.
